

Business activity support - investing in Italy -

29/09/2011 - 31/12/2011

Whatever your need is, for business or for leisure, or for both of them, MITO can help and assist in all the steps you're asked to walk through in Italy.

We can support in business development or personal relocation, supporting from an info point of view, giving advice and making your business idea work.

South of Italy is the new frontier after Tuscany where you can invest and adapt an old farm in a restaurant or an exclusive b&b, then you could spend part of your time living there. Ms. Elen Mirren decided to do so !

For industrial, retail, professional, private needs, please do not hesitate to ask for details, sending an email to: management@mito.org.uk
